

Shiva Sheibani

Clothes are the badge of signatures and human dignity . From the name signature to his own style characteristics.

The signatures of people 's dignity. to divide the whole thoughts wich have led to his own description of art and fashion design,to the trace of painters brushes, to the sculptors art of soil and mud,to the depth of filmmakers lenses,to the animators colourful effects. to the papers which are blended with true natures of street wall and to the musicians who compose the harmonic sound of the world which involve black and white notes in combination with deep silence,

To introduce those who change according to their outfit to become a physician, an engineer, an artist, etc.

To reflect honesty, loyalty, and peace on one hand and infidelity, lie, and ruthlessness on the other hand. In this regard, I have chosen applying mirrors which are attached to fabrics to create various looks on mix material designs that are not only a fashion design, but also a performance, conceptual art and high fashion, Another of my projects was in mix material with carpet.

I have elaborated my design by using "carpet" and a mix with textile and Persian handicrafts such as "Pateh" that belongs to my hometown, Kerman,Iran. What I have always trying to do is,inviting people to peace and harmony in the whole world.

Best regards
